THE HOST CLUB OF AMERICA * FOUNDED 1909

December 27, 2001

To Rescue Workers and Families of Victims affected by 9/11 Disaster

Rotarians all over the world have responded to the September 11 disaster in many different ways. The members of my own club, The Rotary Club of New York, delivered masks, gloves, tools, and food to the site and continue to be involved.

Rotary is an international organization, composed of business and professional men and women, who volunteer their humanitarian services to their individual communities as well as the world, at large, with the goal of creating good will, peace, and greater understanding. There are 30,000 Rotary clubs in 163 countries with a global membership of 1.2 million Rotarians.

The Rotary Club of New York has always appreciated the bravery and the selfless contributions of the New York firefighters and police officers. For many years we have had an official "Firefighters' Day" and a Police-Officers' day" where we honor the "hero of the year."

We would like to share, with you, the various proposals we have received from Rotarians all over the world. Rotary clubs in other states and countries want to help the families of the 9/11 victims, as well as the rescue workers who we are all so proud of.

Enclosed is a list of proposals, along with a form to be filled out by those who are interested in being considered. A special committee of New York Rotarians is ready to help out with the processing of this project.

Please feel free to contact me if there are further questions.

Sincerely yours,
Helen Reisler
President
Rotary Club of New York
